

# PRE TEST

True or False?

T/F	
	1. The best time to consider evaluation strategies is after the program has been implemented.
	2. A program and a project are the same thing.
	3. You must know the organization's mission in order to develop a program
	4. Goals and objectives are the same thing.
	5. An activity does not need to have a completion date.
	6. Theory of Change is another word for Logic Model.
	7. Clients should be consulted/considered before you design a program.
	8. A goal and an outcome are the same thing.
	9. Evaluation is mostly to let funders know that you did a good job.
	10. The Board doesn't need to be involved in or informed about program planning.
